signage, large format
graphics, architectural
film and 3D lettering.**

Trusted local team with over 800 completed
projects and certified installation.

INTRODUCTION

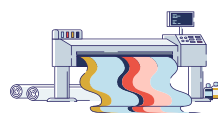

JAG is a professional signage and printing solutions provider with extensive expertise in design, fabrication, and installation. Our services cover a wide range of needs, including custom signage, lightbox production and installation, large-format advertising printing and mounting, heat insulation film application and decorative film installation, also a supplier of premium printing materials and automotive protective films.

With over 15 years of experience in New Zealand, Hong Kong and Macau, JAG has built a strong reputation for delivering reliable service with high-quality workmanship. We are proud to be recognized as one of the authorised applicators for 3M building film products, ensuring our clients receive trusted products adhering to certified standards.

CERTIFICATIONS

3M Certified Graphic Installation Company

Our 3M authorised installer is the only one in Hong Kong with 3M international training certificate

JAG brings you the most efficient and highest standard of creativity, workmanship, and customer support from sign design and production to installation.

Our Team

JAG has over 20 years experience and knowledge in the graphic film industry both in Hong Kong & New Zealand.

Our Company

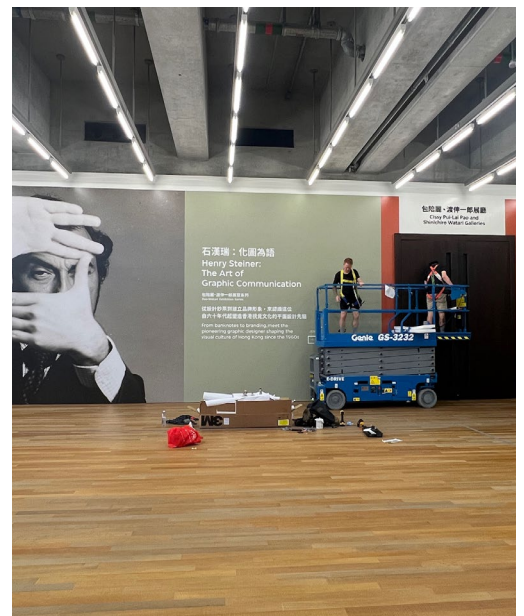

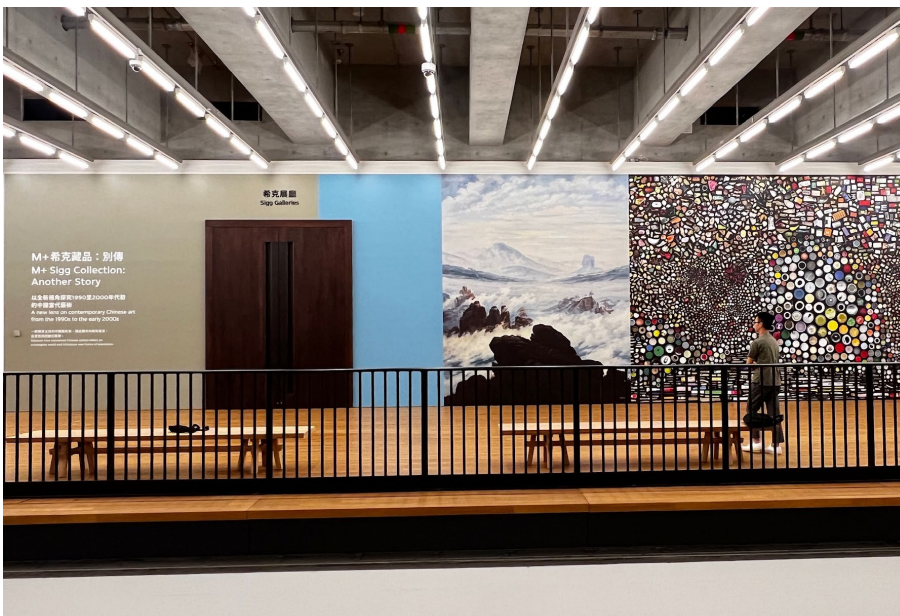

JAG is the branding experts for signage installation, targeting solutions for pre-existing, new build commercial spaces.

PROJECT HIGHLIGHT: THE M+ MUSEUM

JAG is proud to have contributed to one of Asia's most iconic cultural landmarks, the M+ museum in the West Kowloon Cultural District. As a world-class museum of contemporary visual culture, the M+ building demands the highest standards of quality and precision in every detail, and we were honored to be entrusted with a key part of its visitor experience.

Our expertise was called upon to deliver high-impact entrance signage, a critical element that greets visitors at this globally recognized institution. For this project, our team created sophisticated and unique printed effects, including super graphics of 10,000sqm with 12m height sticker. This solution allowed for a dynamic visual experience that integrated seamlessly with the museum's celebrated architecture, maintaining aesthetic integrity while delivering a clear, impactful message to visitors.

GRAPHIC FILM

Big, Bold, and Beautiful Visuals

Unlock the potential of your interior and exterior surfaces with **JAG's** versatile graphic films. These films are the perfect medium for custom-printed designs, allowing you to display vibrant logos, intricate patterns, and bold branding messages on walls and windows. Ideal for office partitions, retail storefronts, and promotional displays, our graphic films offer a stylish and effective way to communicate your identity and create visual impact. They provide a flexible and modern solution for everything from adding a layer of privacy with custom frosting to launching a

marketing campaign with eye-catching window graphics. Our expert team ensures a flawless application, transforming plain surfaces into powerful branding tools.

SIGNAGE & LIGHTBOX

Crafting Your Brand's First Impression

At **JAG**, we understand that a sign is more than just a name; it's a landmark for your brand. With over 15 years of experience in craftsmanship and quality, we specialize in creating world-class signs that capture attention and communicate your message effectively. Our comprehensive signage solutions are tailored to meet the unique needs of your business, from striking exterior signs that enhance your building's facade to intricate interior

branding. We offer a diverse range of options including energy-efficient LED signage, large-scale wall graphics, durable fleet signage, and custom acrylic signs. Our dedicated team is here to guide you through every step, from design to professional installation, ensuring your vision is brought to life with precision and impact.

MORE THAN A SIGN.
IT IS YOUR SIGNATURE.

FROSTING & GLASS DECALS

Transforming Spaces with Style and Privacy

JAG is also dedicated specialists in transforming glass, through window frosting and custom glass decals. These solutions offer an elegant way to achieve privacy in offices, conference rooms, and residential spaces, diffusing light to create a bright yet secluded atmosphere without sacrificing natural light. Furthermore, custom-cut decals and frosted designs provide opportunities for branding, decoration, and wayfinding, allowing businesses to display logos, create unique patterns, or convey important information directly on

their glass surfaces. We ensure all your glass enhancement needs are handled by experienced experts who share our commitment to quality, offering a complete surface solution managed by specialists in every field.

ARCHITECTURAL FILM

Reimagine and Renew Your Surfaces

Transform and modernize your interiors without the disruption and cost of a full renovation with 3M™ DI-NOC™ Architectural Finishes from **JAG**. This innovative solution allows you to refresh almost any flat and 3D curved surface, including walls, furniture, countertops, and fixtures. With over 1000 styles of finishes that realistically mimic the appearance of natural wood, sleek metal, cool stone, and hundreds of other materials, the design possibilities are endless. 3M™ DI-NOC™ films are a durable, flexible, and cost-effective way to give your space a completely new look, whether you are aiming for a subtle refresh or a dramatic transformation.

DIGITAL PRINTING

Enhance Your Brand and Connect with Your Audience

JAG's large-format digital printing services are engineered to make a bold statement. We bring your vision to life with the advanced production capabilities of our strategic partner.

The specialized printing machines can create a wide range of products covering different printing approaches with Eco-solvent/Solvent/Latex and UV. Their powerful UV flatbed printers produce our durable super graphics, or large-scale wall murals that capture attention.

Our role is to be your dedicated guide through the entire process, ensuring a smooth journey from concept to a flawless final installation. With our expert printing force, we confidently deliver stunning, high-resolution graphics that guarantee your project's success.

Expertise in all round printing: Eco-Solvent/Solvent/UV/Latex

3M™ MCS™ Warranty

The 3M™ MCS™ Warranty represents the industry's gold standard for graphics assurance. This comprehensive guarantee is exclusive to projects created using a total 3M solution—from films and inks to overlaminates. It provides complete protection against a full spectrum of potential issues, including manufacturing defects, physical imperfections, and even faults arising during the printing and fabrication process. Choosing a complete 3M graphics system ensures your investment is backed by the most robust performance guarantee available.

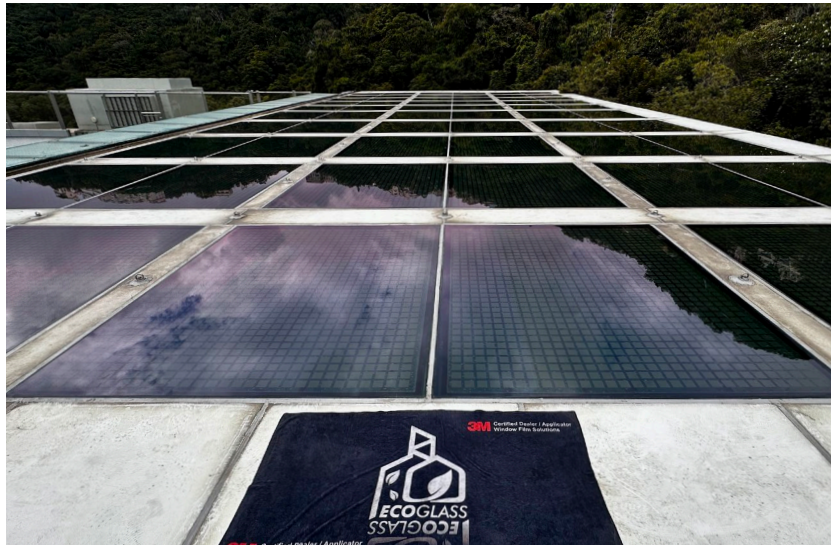

3M™ MCS™ Warranty

WINDOW TINTING

Smart Solutions for Comfort and Protection

To provide our clients with best-in-class solutions for comfort, protection, and energy efficiency, our trusted sister company, **Eco Glass** are specialist in high-performance window films, experts in transforming glass to improve your environment. Their comprehensive range of building films is designed to substantially lower indoor temperatures by rejecting solar heat, which in turn reduces reliance on air conditioning and delivers significant energy savings. Furthermore, these advanced films enhance comfort and productivity by minimizing distracting glare, all

while blocking up to 99.9% of harmful UV rays to protect interiors, furnishings, and occupants. Through this strategic partnership, we ensure your window tinting needs are handled by focused experts who share our commitment to quality, allowing us to offer a complete surface solution managed by specialists in every field. **Eco Glass** is a **3M** authorised applicator with years of experience ensuring the most professional and expert application of building window film.
